	MORNING: MASTER CLASS 1 VENUE: Gallagher Grill B, Gallagher Main Building	MORNING: MASTER CLASS 2 VENUE: Gallagher Grill A, Gallagher Main Building	MORNING: MASTER CLASS 3 VENUE: Gallagher 2, Gallagher Main Building
	 Learning Last Planner® with Villego® Simulation	A collaborative approach to Project Community Risk Management	 Structured Candidature Programme
	Presented by Eugenia Ndzendze & Kevin Naicker	Presented by Andrew Modise	Presented by Prof PD Rwelamila
	About LCI-SA LCI international was formed in 1997 by Glenn Ballard and Greg Howell as a way to develop and disseminate new knowledge regarding the management of work in projects. The Institute is a non-profit organization that aims at creating common understanding on Lean Construction Principles as a way to improve construction productivity in South Africa. Its vision is to radically boost productivity in the construction industry and add value by harnessing the energy and resources of all those dedicated to	About Andrew Modise Andrew Modise is an Economics and Management graduate of the University of Cape Town and the University of Pretoria, respectively. He started his career as a Project Economist and has close to 25 years work experience in stakeholder management in the development, finance, telecommunications, banking and mining sectors. He has completed an Executive Development Programme through Standard Bank/Gordon Institute of Business Science and has held positions at senior and executive management levels.	About the Masterclass This offering will continue beyond this year to give candidates an opportunity to go through an internship brief over and above existing information from the SACPCMP. The framework proposal provides an articulation of: <ul style="list-style-type: none"> • the specific outcomes for Masterclass; • General fundamentals of Candidature; • Specific issues under each professional candidature;

	<p>developing and applying Lean tools and methodologies.</p> <p>They hope to create a common understanding of lean principles among key mega projects stakeholders to promote productivity in the construction industry.</p> <p>Master Class Curriculum</p> <p>learn about the crucial planning steps in the Last Planner System</p> <ul style="list-style-type: none"> • experience the difference between using them and not using them • learn the basics of collaborative programming/pull planning • understand the benefits of using the whole Last Planner System • develop awareness of the importance of creating a system change in project transformation & how Last Planner is that system change for better planning and project execution management. 	<p>Andrew is also skilled and experienced in economic cost-benefit analysis, project management, public policy, local economic development, corporate communication, media relations as well as community engagement which is currently his main focus through his consulting company, Fuligystix.</p> <p>Master Class Curriculum</p> <ul style="list-style-type: none"> • Understanding the Project Context • The Legitimacy of the Local Community as a Stakeholder • Appreciation of Community Dynamics • Principles of Community Engagement • The Community Engagement Process • Community Risk Assessment • Building and Effective Organisational Risk Culture • Strategic Community Negotiations • The Personality and Characteristics of the Community Practitioner 	<ul style="list-style-type: none"> • Preparations for experiential reports and reports content issues; and • core requirements for successful candidature. <p>Master Class Curriculum</p> <p>What is candidature? Clear discussion of what candidature entails and generally what is expected of the candidate serving the professional candidate period.</p> <p>Discussion about candidate basic norms during the candidature period.</p> <p>The candidate as a pro-active individual – the need to remain focused on professional knowledge base and how it is linked to acquisition of professional skills.</p> <p>Expected challenges which could be faced by the candidate and how these issues could be dealt with by the candidate.</p> <p>Candidate relationship with the mentor and the dynamics of learning from the mentor.</p>
	<p>Benefits of Attending</p> <p>The Villego Last Planner simulation enables participants to:</p> <ul style="list-style-type: none"> • learn about the crucial planning steps in the Last Planner System • experience the difference between using them and not using them • learn the basics of collaborative programming/pull planning • understand the benefits of using the whole Last Planner System • develop awareness of the importance of creating a system change in project transformation & how Last Planner is that system change for better planning and project execution management. <p>**Delegates at this Master Class will receive automatic</p>	<p>Benefits of Attending</p> <p>Delegates will gain practical knowledge on understanding the contextual factors within which construction projects are implemented and skills on effective community engagement for the successful delivery of projects.</p>	<p>Benefits of Attending</p> <ul style="list-style-type: none"> • Understand the fundamentals of serving the candidature period towards professional registration • Understand candidature challenges and their respective solutions • Understand the dynamics of bridging the gap between professional knowledge-base and skills acquisition during the candidature period • Understand the process of writing project reports towards professional interview

	membership to the Lean Construction Institute of South Africa (LCI-SA) and will earn xxx CPD points for continuing education.		<ul style="list-style-type: none"> • Understand professional specific issues when writing projects • Understand the dynamics of progression from the candidate stage to professional interview stage • Understand underlying professional registration issues and their implications towards becoming a registered person.

13h00 – 16h00	MASTER CLASSES: ACCREDITED FOR 3 CPD HOURS PER MASTERCLASS BY SACPCMP		
	AFTERNOON: MASTER CLASS 4 VENUE: Gallagher Grill B, Gallagher Main Building	AFTERNOON: MASTER CLASS 5 VENUE: Gallagher Grill A, Gallagher Main Building	AFTERNOON: MASTER CLASS 6 VENUE: Gallagher 2, Gallagher Main Building
	 South African Institute of Occupational Safety and Health Silica Exposure and its health Risks	 The Role of the Project Manager in the international contracts types of NEC and FIDIC in modern day Projects	 The benefit of the utilisation of the PROCSA documentation
	Presented by Harold Gaze	Presented by Chris Roos	Presented by Charles Israelite
	<p>Saioosh is recognised by the South African Qualifications Authority (SAQA) as the Professional Body to register Occupational Health and Safety Practitioners in South Africa in terms of the NQF Act, Act 67 of 2008.</p> <p>With more than 11000 members, Saioosh is the leading source of information and networking opportunities within the Occupational Health and Safety profession.</p>	<p>CHRIS ROOS & ASSOCIATES is a multidisciplinary boutique advisory specialising exclusively in engineering and construction contract law, known for its commercial knowledge of engineering and construction commercial contracts, serving clients across the continent of Africa, based in Somerset West, Western Cape, South Africa.</p> <p>Since its inception Chris Roos & Associates expanded its commercial services offering beyond the engineering, construction and built industry and has since established itself as one of the leading commercial advisories for the Energy, Fisheries, Food & Beverage, Mining, Oil & Gas and Transport industries in South Africa.</p> <p>CHRIS ROOS & ASSOCIATES specialises in four distinct areas:</p> <ul style="list-style-type: none"> • Bid advisory services 	<p>BACKGROUND</p> <p>The PROCSA Committee of representatives from its Constituent Bodies devised the Professional Client Consultant Services Agreements which comprise a suite of documents prepared to regulate the Terms of Engagement between the Client and Consultants employed on a development project. They are compiled in the interest of standardisation, harmonisation and good practice in the Construction Industry, on a mandate from the Constituent Bodies. The Constituent Bodies are:</p> <ul style="list-style-type: none"> • Africa Association of Quantity Surveyors • Association of Construction Project Managers • Association of South African Quantity Surveyors

		<ul style="list-style-type: none"> • Post award advisory services • Engineering and Construction adjudication and arbitration • Engineering and Construction Contract Law Training and Development 	<ul style="list-style-type: none"> • Consulting Engineers South Africa • South African Black Technical and Allied Careers Organisation • South African Institute of Architects • The South African Property Owner's Association
	<p>Benefits of Attending</p> <p>Safety issues whether occupational or public have and are fairly well understood by most people. Occupational health including silica and the potential health effects are generally poorly understood. The aim of this presentation is to provide technical and practical knowledge and information to enable better understanding and decision making to occur in regard to:</p> <ul style="list-style-type: none"> • Silica exposure • Potential effects from exposure to silica • Recognising the potential hazards and risks • Determining mitigation measures • Compliance with legal and moral obligations • Understanding how silica exposure is evaluated • Current and future problems • Decision making 	<p>Benefits of Attending</p> <p>CHRIS ROOS & ASSOCIATES' mission is to provide expert commercial advice and support to the built environment in engineering and construction contracts in Africa. This workshop will highlight the contractual expectations of the Project Manager in the NEC and FIDIC contracts forming part of the four CIDB approved contracts in South Africa. This Master Class will also elaborate on the role and function of Project Management in the dispute resolution process and legislative compliance requirements and assist Project Managers in setting the tone with the objective of achieving collaborative co-operation from project stakeholders during project and contract execution. Delegates at this Master Class will receive a special discount when attending any of the CPD Accredited Engineering and Construction Contract Law Seminars presented by CHRIS ROOS & ASSOCIATES during the 2019 calendar year.</p>	<p>Content and Benefits of Attending</p> <p>The benefit of the utilisation of the PROCSA documentation is the linkage to the Identification of Work currently being considered for publication by all of the Councils. This embodies a comprehensive generic "Scope of Services" for each and every discipline, harmonised across professions. This can be linked to the required competencies of practitioners, to ensure comprehensive and competent performance during the course of projects.</p> <p>PROCSA provides a comprehensive term of reference for the Client to understand and monitor the service delivery of their appointed Consultants.</p>
